

## **Have your say on Commonwealth Government Services!**

Have you, your family or people you know needed help in areas like health, housing, employment, learning English, and interpreting services?

We want to hear about how well government agencies work with people from migrant and refugee backgrounds.

Your experiences are important - they will help us know:

- which agencies are helpful, easy to use and working well
- which agencies are unhelpful, hard to access or hard to understand
- how they could work better to help people like you

FECCA is conducting a national consultation and wants to hear your views.

FECCA will make recommendations about how government agencies can improve the way they work.

**\$25 vouchers offered to assist people with low incomes, transport difficulties and people from new and emerging communities to attend.**
